SUMMARY

Front-end web developer leveraging psychology background to build a more intuitive user experience on the web. Recently earned a certificate in full stack development from the University Coding, with newly developed skills in JavaScript, CSS, React.js, and responsive web design. Known as an innovative problem solver passionate about developing apps, with a focus on mobile-first design and development. With each project, my aim is to best engage my audience for an impactful user experience. I applied aspects of UX and agile development in a recent project. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.
